

NOTAS/NOTES

A. GENERAL

a) All work to be executed according to SABS 200, the Building Regulations and the Regulations of the Local Government.

b) All Construction Processes shall comply with the Occupational Health and Safety Act (No. 95) of 1993, including the Construction Regulations 2014.

c) All services and written notices should be given for connection to Municipal Services (Water & Sewer).

F. TELECOM SLEEVES

1) MAN PIPES

a) Man Pipes shall be 100mm HDPE Kabelex (Green) and installed on a Class C bedding in the positions as indicated on the drawings (or Center Approved).

b) Pipes shall be installed with a minimum cover of 200mm. Suitable material of bedding (slant) quality sand, compacted to 100% of MASHFD density, shall be used up to the level of the underside of the road layer.

2) MANHOLES

a) All manholes shall be built according to the details as supplied by Telkom or as shown on the drawings.

b) Manhole covers shall be of the Fibre type as required by Telkom.

3) EFT CONNECTIONS

a) EFT connections shall be 25mm HDPE Class 10.

b) The connection shall go to 30m inside the erf and be supplied with an approved draw wire and marker.
